

Dear Captain West, my 17 year old son, a firefighter,

My father-in-law is 95 & recently learned medical news that very likely makes this Christmas his last. We desperately wanted to get him into our house - which has many stairs - for one last Christmas with all the lights, decorations, traditional food, and family gathered around, but didn't see how we could. Then my friend mentioned that she knew someone in Tiburon who was helped into his house by the fireflies. When I dropped by our station to see if this crazy idea was possible, I was greeted with warmth & assurances that of course it was. A Christmas Day, Captain West, his team efficiently & with great care got my father-in-law safely in & out of our home.

You have given us the best
Christmas ever - all of
us together for one more
Christmas.

May the holiday season fill your home with joy,
your heart with love, and your life with laughter.

Thank you so much,
Lorrie Goldin for Marshall - Goldin's
all of us.
